

[Kaspersky Internet Security 2014 Free Download Full Version For Windows Xpinstmanksl](#)

Before proceeding to install our Spy Phone App software you will need to make sure that the **Cydia** application is available on the home screen of the target phone. If you can't find it then it means that your device is not **Jailbroken** and you can't perform the steps from below.

Setup process

Step #1 – Add a new Cydia Source

- Open the Cydia application from the target phone
